To Whom it May Concern:

We have recently completed a hotel refurbishment project with Aleksander, Diana and the team at Sarna Architects. This was a very successful project where we delivered a world class hotel product within very tight budget constraints. We work with a number of international hotel companies delivering projects all over the world. The hotel refurbishment completed with Sarna Architects in Zakopane met and exceeded the high standards set by ourselves and Cappella Hotels, the operating company.

Sarna Architects proved to be extremely helpful, professional and worked with a comprehensive "can do" attitude from the very start to the very end of the project. They provided workable solutions to the many project issues that arose and always kept their solutions within the available project budgets. They offered constructive advice in finding resolutions to the sometimes onerous Polish municipal administrative systems.

None of our staff or the senior staff of Cappella Hotels speaks Polish. In the early stages of the project, Aleksander and Diana often doubled as translators, as well as designers, in helping us detail and finalise contracts for works. The design documentation from Sarna Architects was comprehensive, easy to follow and useful for the correct execution on site. Their drawings and detailing are on par with the largest hotel design houses.

We would have no hesitation in recommending Sarna Architects for your design and project management works, whether they are in Poland or further afield. Should you require any additional information in relation to our works with Sarna Architects, please do not hesitate to contact the undersigned.

Yours faithfully,

Philip Donohue
Managing Director
Ardcastle Group
